

Enhancing Performance

Through integration of industrial
automation technologies

iconsys

Our capabilities

We have the flexibility to deliver value at all levels, from simple to complex projects. Our innovative solutions help improve safety, profitability, security, reliability and productivity.

Industrial Automation

- Continuous Process Line Automation
- Discrete Manufacturing Automation
- Flexible and High-performance Automation
- Automation beyond the Manufacturing Sector
- Control System Design, Integration & Migration
- Regulatory Compliance
- Virtualisation
- Field Services

Enterprise Integration

- Operations Technology Consulting
- Manufacturing / ERP Integration
- Smart Manufacturing / IoT
- Asset Performance
- Performance Analytics
- Work Process Management

Strategic Manufacturing Solutions

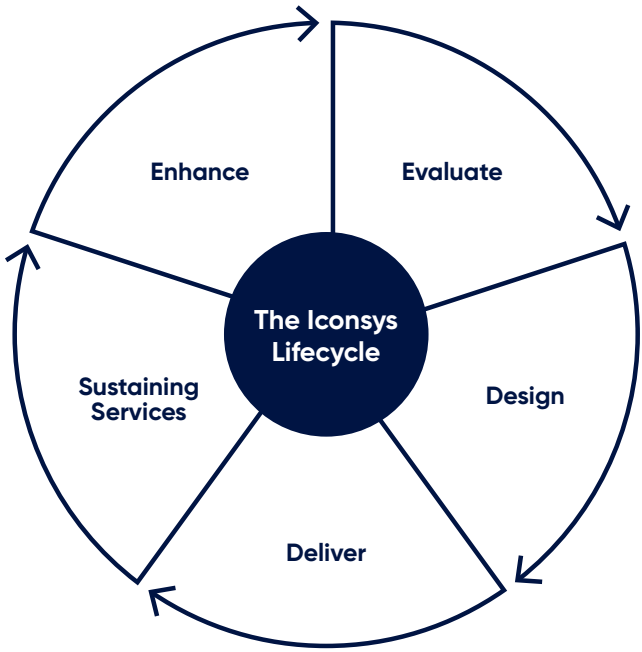

- Productivity Improvements
- Industrial Cyber Security
- Energy Efficiency
- Automation Strategy

ServConnect™ Service Support

- On-demand Connected Support
- Integrated Connected Support
- Managed Connected Support

The iconsys Lifecycle

From concept to completion and beyond, you can count on iconsys to design, deliver and develop solutions for every stage of the project lifecycle, ensuring continuous and improvement to keep your operation running at optimum efficiency.

Evaluate

We'll agree an overall concept design, user requirement specifications, system simulation, design specifications, development of user standards, simultaneous engineering, an engineering pilot and risk assessment.

Design

This includes project management, complete system specification, hardware and software design, application development, test strategy and methodology documents, system emulation/simulation and module/integrated testing.

Deliver

Our project implementation covers manufacturing, sitework planning and design, site installation works, virtual commissioning, system commissioning and operation/maintenance manuals.

ServConnect™ Service Support

We offer tailored contracts, scheduled preventative maintenance, upgrade and obsolescence management, ad hoc services, cyber security, remote diagnostic via secure connection and on-site/off-site support.

Enhance

Enjoy peace of mind with operation consulting, connected enterprise, API dashboards, feasibility studies and process analytics.

We understand your sector

We work closely with clients in all kinds of industries, designing and delivering cutting-edge solutions to improve efficiency and profitability. Our multi-disciplined teams are able to adapt to your business needs with sector specific support and specialist expertise, aiming to exceed expectations throughout your project and into the future.

Metals

Automotive

Marine, Ports & Offshore

Pulp & Paper

Food & Beverage

Construction Materials

Transportation

FMCG

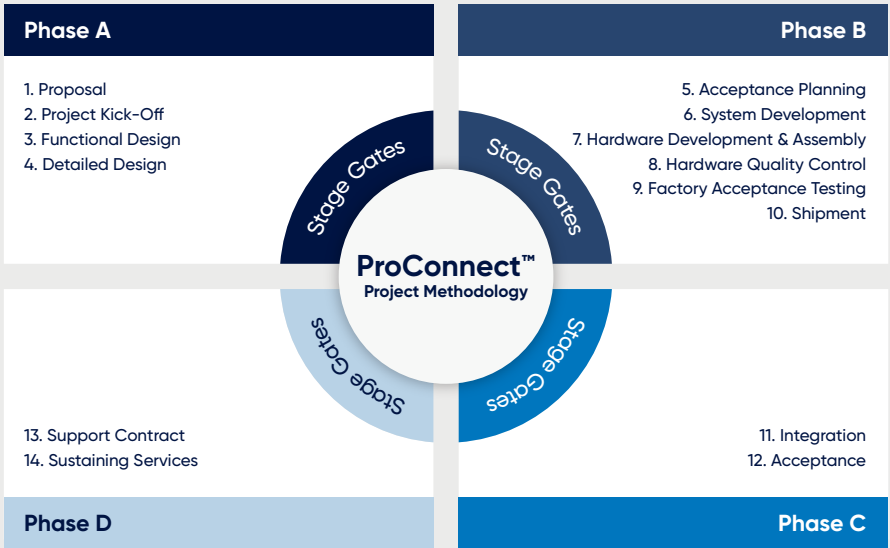

Other Industries

Project Methodology

Our Project methodology is central to the successful completion of every project. Our proven multi-gated process, ProConnect™, has a Quality Management System accredited to ISO9001:2015 at its core, ensuring that all services and solutions are consistently delivered to the highest standards.

We also undertake a gate review on completion of each stage in the project lifecycle, to ensure that every requirement is being achieved. Our experienced team is committed to delivering innovative solutions to satisfy your requirements and enhance your business performance.

Who we are

iconsys is a leading UK automation solutions provider and systems integrator. Well-established and highly respected, we combine innovative technologies with extensive industry knowledge and experience, supporting you throughout the asset lifecycle to enhance the performance of your business.

Our vision is to lead customers into the digital era, through close working partnerships built on trust. We are driven to delivering world-class solutions that inspire change across multiple markets.
