SCHMALZ

What we offer to our clients

Electrical Design

Designing of detailed technical documentation

Equipment Assembly

MCC and control cabinets assembling and testing

Development of Software Applications

Development of PLC, HMI, SCADA, DCS software applications

Site Management & Supervision

Overseeing operations, conducting checks and controls on-site

Testing & Commissioning

Assuring that the whole system is put into operation smoothly

Training & Maintenance

Training users in operating and maintenance of equipment and devices installed

Our Suppliers

PLC

Siemens, Omron, Yokogawa,
Rockwell, Schneider Electric

DCS

Siemens, Yokogawa

SCADA

Siemens, Yokogawa, General Electric,
Schneider Electric, Omron, Rockwell

ENCLOSURES

nVent Hoffman, Rittal

CAD

EPLAN, AutoCAD

ELECTRICAL DRIVES

ABB, Siemens, Omron, Rockwell,
Danfoss, Yaskawa, Schneider Electric

MW SWITCHGEAR

ABB, Schneider Electric, Siemens

LV SWITCHGEAR

ABB, Schneider Electric, Siemens

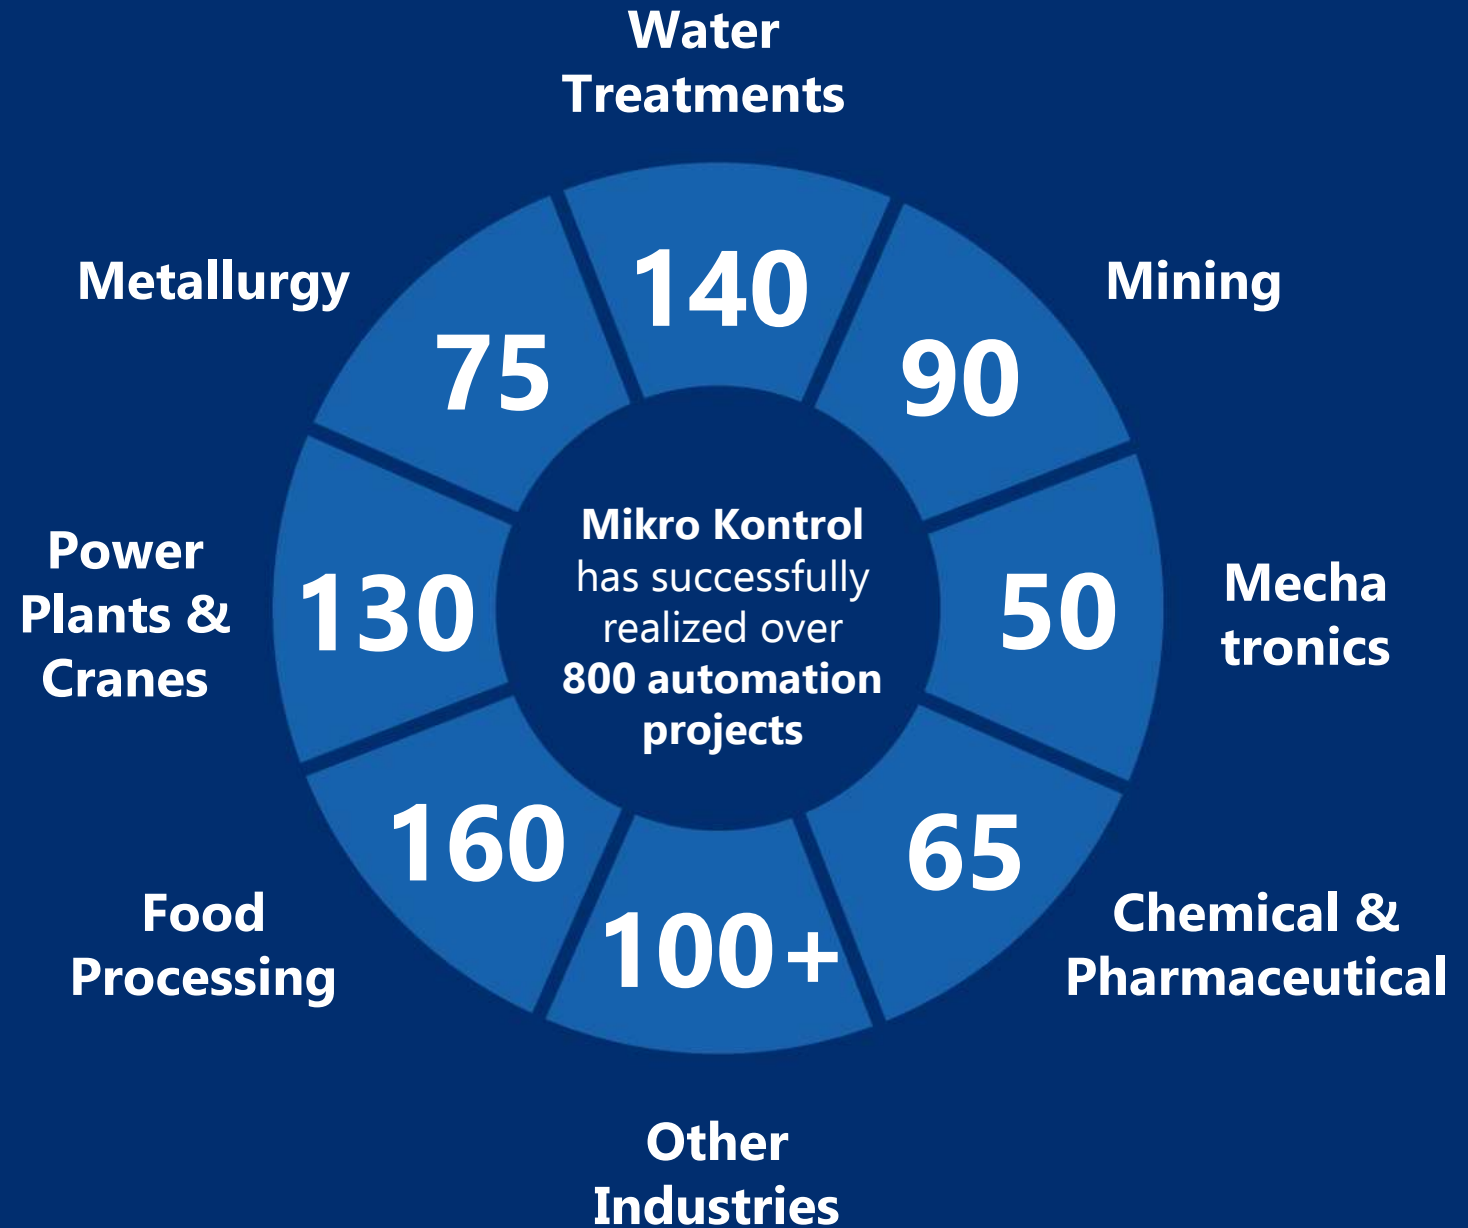

INSTRUMENTATION

Yokogawa, Siemens, Endress+Hauser

SENSORS AND COMPONENTS

Omron, Turck, DuK, Schmersal,
Pepperl+Fuchs, Gessmann

Mikro Kontrol Track Record

We Promise

Optimal Design

Design tailored exactly to your needs.

Only necessary scope of work.

Intergration

Only the essential equipment. Not more, not less.

No unnecessary expanses.

Top Quality

Engineering services of highest quality.

Long-term relationship built on trust.

No Lock - in

No software lock-in, free of passwords.

Free to make your own modifications afterwards.

Your time

Respect for your deadlines.

Keeping ahead of the schedule.
