Data Backup

Follow the instructions below to backup data on the LVS-95XX system.

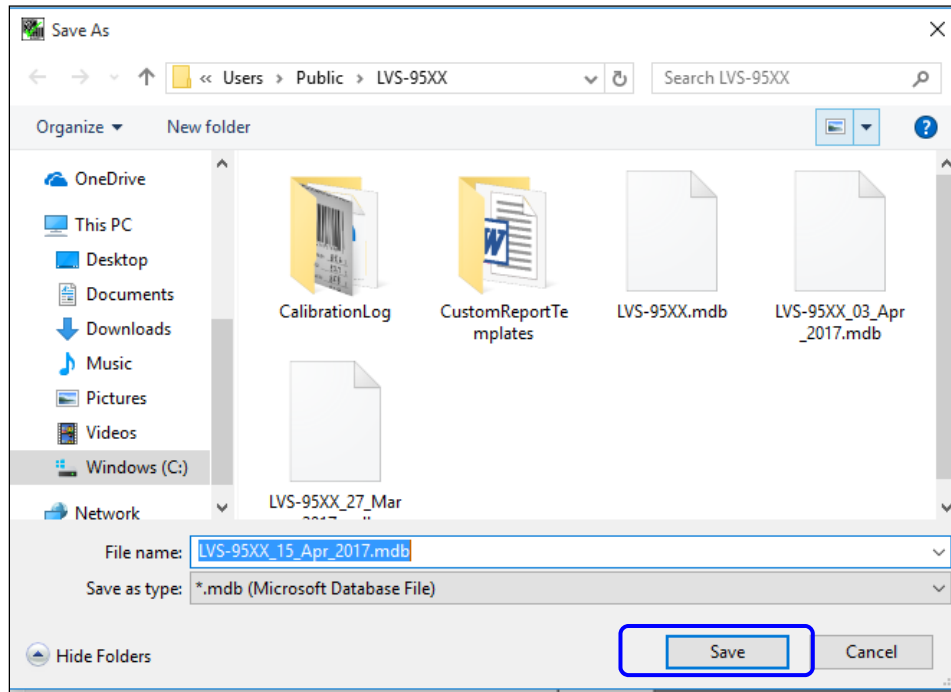

1. Log onto the LVS-95XX system.
2. Click the **Archive** tab, and then click **Create backup database**.

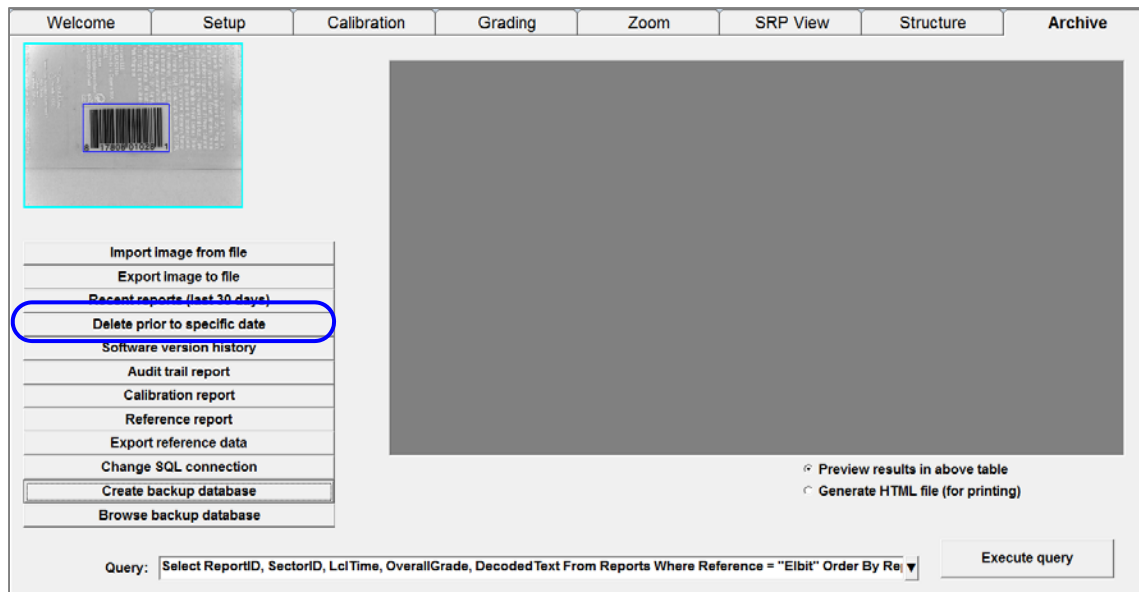

3. Click the **Save in** drop-down list and select the folder or drive to which you want to save.

- In the **File name** box, enter a new name for the file, or keep the default file name which is entered as LVS-95XX_[current date].

- Click **Save**.
- After Backing up the database, select **Delete prior to a specific date**.

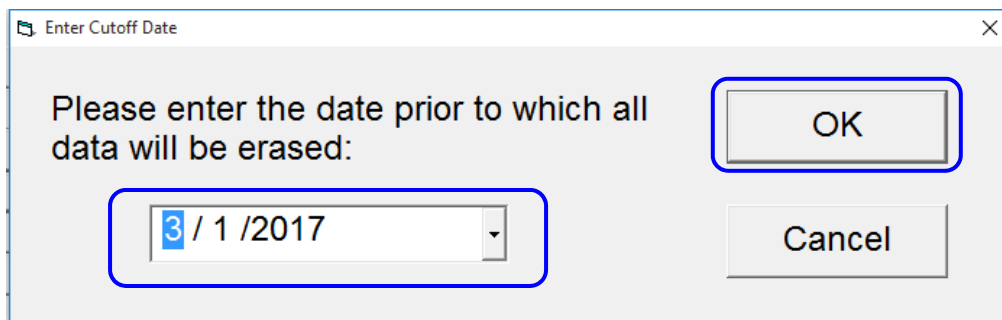

- If you *did not create* a backup, the below warning will appear prompting to perform the backup first..

If backup has been performed, select **No**.

8. Enter the date prior to which all data will be erased and select **OK**.

The date should be entered as the date the backup was performed (EX.. Current day).

9. The number of deleted records will be displayed on the screen. After deleting the records, close the software and then reopen it. The database will automatically compact and the Archive tab will not contain data prior to today's date.

The Backed up databases can be accessed by selecting Browse backup database.
